

THE PERSONAL LEARNING PLAN

The learning cycle illuminates the personal development plan and guide professional individuals and teams, educators, and organizations to create effective and compelling continuing learning environments

1

WHERE AM I GOING? WHAT WILL I LEARN?

To identify a problem
To analyse a learning gap

2

HOW WILL I LEARN? HOW WILL I GET THERE?

To establish goals and objectives, match them with appropriate learning strategies, and undertake and implement educational activities.

3

HOW WELL HAVE I LEARNED? HOW WILL I KNOW I AM THERE?

To review learning outcomes against the established objectives, and assess the impact on patients, organizations, and communities' health outcomes.

To adjust in accordance for future iterations
