BRUCE SPIVEY SKILLS DEVELOPMENT AWARDS

About Dr Bruce Spivey

Dr. Bruce Spivey is a world-renowned American ophthalmologist and leader in medical education, often described as a "giant" in the field. He has held some of the most influential roles in global eye care, including serving as the President of the International Council of Ophthalmology (ICO) from 2006 to 2014 and the founding CEO of the American Academy of Ophthalmology (AAO). He has a significant and direct connection to African Ophthalmology through his leadership and philanthropic work aimed at improving eye care infrastructure and education on the continent. During his tenure at the ICO and later with the Ophthalmology Foundation, he championed "teaching the teachers." This initiative focuses on equipping African educators with the tools to train the next generation of local ophthalmologists, reducing the need for students to travel abroad for high-quality education. Dr. Spivey played a critical role in supporting the formation of the African Ophthalmology Council (AOC, the representative body for ophthalmologists across Africa. The Bruce Spivey Skills Development Award was launched by the AOC in honour of his contributions. it provides funding for African ophthalmologists or allied eye health professionals to undergo short intensive training to learn specific subspecialty research, medical or surgical skills. Dr. Spivey is widely recognized not just for his administrative brilliance, but for his humanity and collaborative leadership, consistently working to ensure that high-quality eye care is accessible regardless of a country's income level.

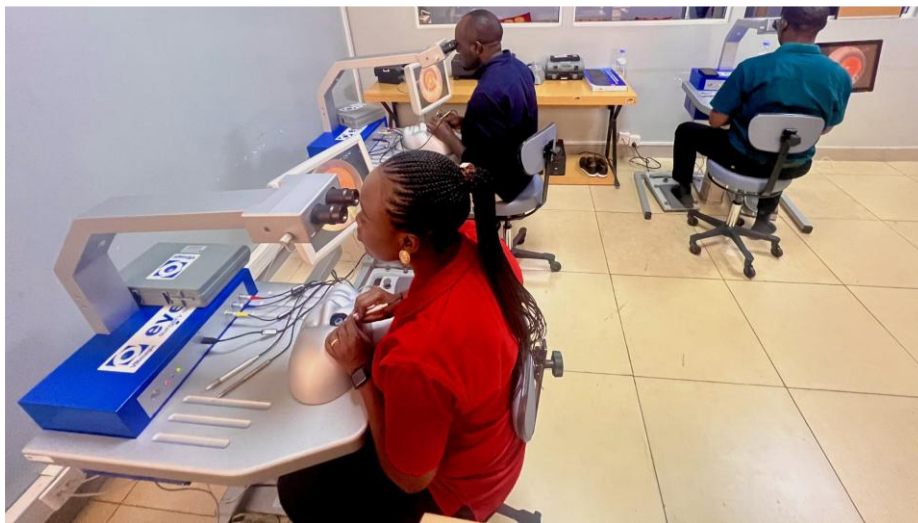

BRUCE SPIVEY SKILLS DEVELOPMENT AWARDS

AOC –Orbis Cataract Surgery Learning Lab

in collaboration with Haag Streit and Alcon

Participation to this Training Lab is supported by Orbis, Alcon, Haag Streit, and AOC. Registration is mandatory but is free of cost. The application form is attached as a pdf or can be accessed [here](#).

This combined training program offers a unique, holistic learning experience designed to accelerate your journey toward "surgical readiness." Participants will engage in intensive, one-on-one coaching using the **Haag-Streit Eyesi Surgical simulator**—a validated tool for mastering all aspects of cataract surgery—alongside **Alcon wet labs** and artificial eyes. Led by renowned experts like Marshall Dial and Dr. Ivo Ferreira, this course provides an active learning environment where aspiring surgeons can take the early steps to master essential **capsulorhexis and phaco techniques**, ensuring they become safe and effective practitioners.

Educational Objectives

Integrate an active learning experience for Phacoemulsification Cataract surgery using a modern holistic training model that blends virtual reality and wet lab

Offer African YO's already doing MSICS a unique active learning experience to begin transition to Phaco

Ophthalmologists who are registered to attend AOC2026 Congress in CapeTown.

Ophthalmologists working in Africa will be given priority

Applicants must have access to a phacoemulsification machine and supplies post training

Must have basic+ skills in MSICS training

Cataract Surgical trainers in faculty in training programs in Africa

Prerequisites

Must commit to completing the provided online pre-learning material before the hands on session

BRUCE SPIVEY SKILLS DEVELOPMENT AWARDS

IUSG BASIC COURSE IN UVEITIS

The 3rd Basic Course in Uveitis in Africa April 13 - 17, 2026 in Addis Ababa, Ethiopia

The International Uveitis Study Group (IUSG), under the auspices of the International Council of Ophthalmology (ICO) will be conducting the 3rd Uveitis Course in Africa, which will be held in Addis Ababa, Ethiopia, at the ILRI Agaze conference center, between April 13 and 17, 2026.

This course is intended for Ophthalmologists interested in deepening their knowledge of ocular inflammation, and in particular those who are considering pursuing a career in this field, as well as ophthalmologists who want an in-depth refresher on uveitis.

All aspects from diagnosis to therapy will be covered with didactic lectures, three small interactive group sessions, and case discussions provided by the attendees and faculty. Among the topics to be addressed: clinical evaluation of uveitis patients, effective use of diagnostic and laboratory tests, use and relevance of imaging techniques, and the theoptimal use of immunosuppressive therapy. The interactive program will allow in-depth discussions between alumni and staff regarding both simple and more complex cases. Enough time is provided for one-on-one discussion with the faculty.

The faculty is composed of highly experienced IUSG-members who are well known for their teaching skills.

Sponsors of the Uveitis course include:

- International Uveitis Study Group (IUSG)
- Cure Blindness, Sight for Souls (SFS) & Massachusetts Eye and Ear (MEE)

Conference Fee:

The fee includes the following items:

- ◆ Participation in the course and the course materials
- ◆ Social events and a city excursion in Addis Ababa
- ◆ CME credit hours (application in process)
- ◆ Accommodations for 5 nights from April 13-17, 2026 (including breakfast, lunch and dinner).

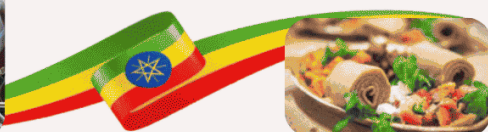

Earlybird fee (in Euros): €700 for African participants or €1800 for other international participants

Registration:

Complete the [online registration](#) form or contact Sight for Souls at: administration@sightforsouls.org. Please reference "IUSG course in Ethiopia" in the subject line. The registration is considered completed only after the conference fee has been paid.

Ethiopian participants, please contact SFS at administration@sightforsouls.org for cost information.

Logistics support and further instructions will be provided by the SFS office in Addis Ababa following registration.
